4	2003-02-08	20:01:16	Daniel Kitcherside	London	I agree! Let us know the truth. We are obviously not the only ones in the universe.
5	2003-02-08	21:57:32	Anne Evans	Seven Sisters, Neath, West Gla	Though I have never seen anything myself, we can't possibly be the only ones in the universe!
6	2003-02-09	20:52:16	Lynette Susan Watkins	Brecon	I totally agree that Tony Blair and George Bush should admit that aliens do exist and tell the world. The secret has been kept long enough. What are they afraid of?

7	2003-02-09	21:06:14	Philip Goodier	Winsford, Ches	The people are fed up with the lies, deception, corruption, and power games of the American and British Governments and secret non governmental bodies, the time is NOW for nothing but the truth, on free energy and working devices, visits to this planet by various races of ET's, and all the other hidden sciences and technology kept from humanity. Also to tell us our true history and heritage as homo sapiens.
8	2003-02-10	06:25:42	james fox	Bolinas	There is a preponderance of evidence regarding the existence of UFOs. The documents should be declassified and made available to the general public. Warmest regards, James Fox <a href="http://www.outoftheblue.tv">www.outoftheblue.tv</a>
9	2003-02-10	13:54:18	Geoff Richardson	HULL	The public need to know!
10	2003-02-10	14:25:14	Bill Turner	Ashford, Middx. TW15 3HP	I agree that full disclosure of UK 'UFO' files is required as soon as possible. Yours Sincerely, Bill Turner.
11	2003-02-10	14:29:00	Stephen Peverley	Hull	I agree to all the above
12	2003-02-10	14:34:49	HARRY SOMMERVILLE	LIVINGSTON	HI STEVE, IT'S TIME ALL GOVERNMENTS CAME CLEAN ABOUT UFO ACTIVITY WORLDWIDE. HARRY SOMMERVILLE DIRECTOR OF RESEARCH/GUFORO
13	2003-02-10	17:52:25	ERIC JOHN KAESBERG	Simi Valley Calif	I understand that a good % of the world would not know how to take facts that we are not alone that aliens are here very active in many things that our govts are hiding when indeed I think I would be more terrified of Dinosaurs than aliens
14	2003-02-10	23:52:04	derek stephens	hull e.yorks	I fully agree, and back you all the way, more power to your elbow.
15	2003-02-11	13:56:46	Rob Hale	Knoxville, Tennessee, USA	Let's get it all out in the open. What do we really have to fear? If an alien civilization wanted to do harm to us, wouldn't they have already done so? All they can do is help us.
16	2003-02-11	14:50:59	gaillard michel	lausanne - switzerland	go for it
17	2003-02-11	16:38:49	Thomas Best	Glasgow	The public are ready for the truth. Concealing the evidence only makes matters worst.
18	2003-02-11	20:37:01	Lorna Roberts	Shrewsbury	It's about time something like this was done - the powers that be know a lot more than they are letting on - it is time we knew the truth!

19	2003-02-12	14:18:05	Sarah Hobday	Glastonbury	I feel this information should be made public now. Too many people claim that something has happened to them for it to all be hoaxes
20	2003-02-12	20:51:27	Jules Palmer	Nailsworth, Glos, UK	I join in calling on the UK and world governments to acknowledge the reality of Extra-Terrestrial intelligence. It is now time for humanity to 'grow up' and accept their responsibility and stand with our friends from the stars.
21	2003-02-13	12:54:36	Karen Henry	South Shields	We need to know what is really happening so why wont anyone tell us the truth?!?!?
22	2003-02-15	17:16:38	Xander Mahony	Leeds, UK	Alien-UFOs.com supports UFO disclosure.
23	2003-02-16	17:35:58	Matt Johnstone	Ipswich, Suffolk, UK.	I think the world is ready for the truth. We all know something is going on.
24	2003-02-16	21:37:18	Barry M King	Chelmsford	From an ex-security operative at a secret base in the UK and a MILAB abductee now working with Dr Greer and his Disclosure Project, it is now time for full public disclosure, before it is too late
25	2003-02-16	21:42:51	Sally Edey	Oxted, Surrey	I agree wholeheartedly with this action.
26	2003-02-16	22:34:28	Keith Addison	Crosshills,N/yorks	Come CLEAN Mr Blair?. If you can crack the team which are really in the know(non-elected persons!),you will be doing yourself and the citizens of Britain a favour. Plus slightly redeeming a little trust back...you need this badly!.
27	2003-02-17	01:26:09	Sandra S. Wright	Washgtn, DC-USA	Ther is no question the UFO's and Extra Terrestrials have visited our Earth for thousands of years! The sooner our respective Governments can tell the truth about this one fact, the sooner the populus will support the Leadership!

28	2003-02-17	02:20:38	Theodore Clarke Robertson	Ellettsville Indiana, (Near Bl	The fact that the public has been lied to about the reality of Extraterrestrial beings for so long is a serious shortcoming by our governments and military. These institutions are created for the people and are to serve the people. On no account are they permitted to lie and deceive. The people have a right to know about the ETs as they helped create us. Science needs to know about our origins and the existence of extraterrestrials. Civilian scientists are the most capable individuals of ET study. The knowledge gained by back engineering of retrieved ET craft should be shared with all and not hoarded by the military and used to develop weapons. The 50 years of deception has continued too long. It is a matter of National security to disclose the truth otherwise citizens will lose trust in their government. Sooner than later the truth about ETs is going to come out and into public hands. I choose to grant various governments amnesty from their doings and request that they do the same.
29	2003-02-17	07:41:23	piere boller	woking	we are getting there...
30	2003-02-17	09:31:12	Alex	Bialystok/Poland	The governments must admit that extraterrestrial lifeforms exist, and more- they influence our lives. We are being observed for hundreds of years, the Truth must be shown to the public, there is too much evidence to let that be ignored.
31	2003-02-17	09:39:26	Shelly Keel	Whitchurch Hants	I would like to know why there is a government denial about UFO's and the possibility of alien life. This petition is a real cool idea.
32	2003-02-17	10:31:41	Samantha	Hemel Hempstead	We deserve to know the truth.
33	2003-02-17	14:03:21	K. Joyce Hall	Hove	Now is the time for the truth to be revealed to all mankind. Time to start remembering who we really are.
34	2003-02-17	17:03:15	Carol Trendler	Cincinnati, OH USA	Please divulge information about the UFO and alien subjects.
35	2003-02-17	21:39:56	Gui Louis Rivaud	Taunton	The truth has got to come out. Good luck with the petition. Regards. Gui Louis <a href="http://www.maxpages.com/cosmicresearch">www.maxpages.com/cosmicresearch</a>
36	2003-02-17	22:23:43	ANTHONY CLAWSON	BOSTON	Ever since i saw an object stop in midflight and then go back the other way .I have been a believer nothing unusual in that you might say but this was 46 years ago so Mr Blair lets have the truth PLEASE

37	2003-02-17	23:42:02	Richard Gordon	Richhill	I am open minded when considering the existence of alien beings. How can you prove a they don't exist i.e a negative? We have more evidence now to prove they're real than we've ever had (implants, Disclosure Project, countless hours of raw footage, documentaries etc.). The world is being collectively lied to by the non-disclosure of this kind of information (and debunkers). Anyone can surely recognise this at some point. The time has come for Official Truthful Disclosure. Even if you, the Prime Minister do not have access to this information, you can apply pressure to those who do, to come forward an TELL THE TRUTH TO THE PEOPLE.
38	2003-02-18	00:39:49	Steve Jackson	Lisburn	We need to know the truth about the ET visitation to our planet immediately. The technologies that are already being used secretly by the powers that be could solve the world energy crisis and world poverty. There would be no need for oil which may avoid a war or two! The benefits to all mankind can only be dreamt of.
39	2003-02-18	14:40:42	Marion Simmonds	Farnham	It is about time something like this was organised. Best of luck.
40	2003-02-18	17:46:20	Paul Kirsch	Culver City, CA USA	Please reveal all that you know in regards to UFO visitation or ET contact with earth. Thank you.
41	2003-02-18	22:00:25	Sam Smith	Bolton	Regardless of 'evidence' to certify whether there is extra-terrestrial life, i firmly believe that if a species such as ourselves can exist on one planet, what is there to say that this could not occur on another planet? It seems too obvious. It also seems that the general public will accept the possibility of extra-terrestrial life, but the possibility that it is what i call 'little grey aliens' and it all goes out the window. The distinction must be made, and the must be acceptance from all. That is all I will say, thank you. Sam.
42	2003-02-18	22:27:21	Roger Light	London	say the truth
43	2003-02-18	22:36:54	Daren	Wigan	Great site, good to see people who feel that full disclosure may be not too far off. Check out <a href="http://wearenotalone.net">http://wearenotalone.net</a>
44	2003-02-19	03:15:51	Graham Williams	Pentrebach / Wales	I just want the truth
45	2003-02-19	15:59:23	Karl O' Connor	London	Its time
46	2003-02-19	22:12:59	Tom Cooney	Southend on Sea	We already know that their is an alien race from another world here, the skies are full of there craft, so why don't you just confirm it and welcome their help to bring peace and a shared existance to humanity.

47	2003-02-20	15:06:00	HARRY SOMMERVILLE	LIVINGSTON	AS JOHN LENNON SAID "JUST GIMME SOME TRUTH"
48	2003-02-21	15:07:10	Liz Allen	Wigan, Lancashire	I think it IS time that the truth be told! I myself have experienced a close encounter of the third kind, and I am not ashamed to admit it. Why should I? I truly believe that they could very well be the key to our existence, and that they come here to watch over us. To come in the way they do (E.T. encounter) through sleep, is because they feel that at the moment this is the only way that they think we can deal with their being, (that they do not want to alarm us) until they feel that they can reveal themselves while we are in our conscious state. I feel so frustrated with other people around me who say that the whole phenomena is a cult, because i know what happened to me, and its only when that particular person has experienced contact, that they will understand. I feel so strongly about the whole issue that I have based my final year dissertation on my own experience. I am an art student,and feel that the issue should no longer be brushed under the carpet,the public deserve to know
49	2003-02-22	09:40:33	anthony b white	melbourne	war mongers we dont need,peace makers we do need put your enagy to helping the por and the needy and sick .
50	2003-02-24	03:58:33	Eric Furtack	New York	I hope this works. the world needs to know the truth.
51	2003-02-25	22:38:30	Glenn Sarjeant	Sheffield	any truth is good truth about this subject
52	2003-03-01	23:17:10	Scott Madison	Wollongong	Most of us know we're not alone, it would just be nice for our governments to come out and admit it. Break the silence, theres so much we could learn.
53	2003-03-02	19:44:20	stewart james	wolverhampton	It's about time this subject was disclosed,the benifits to mankind are enormous,I fully support the disclosure project,it is obvious we are being visited, the evindence on the nasa transmissions is proof,and I for one have had a few experiences.
54	2003-03-02	20:26:57	Robert A. Johnston	Bedworth	There seems to be plenty of evidence of official interest in this subject. The UK government is still the most secretive in western Europe and has only allowed a 'drip feed' of relevant documents to be released in recent years. The public have a right to see whatever information is being kept.
55	2003-03-04	19:41:21	Paul Beattie	Belfast	Tell the truth about this strange phenomena. Stop the secrecy, stop the dis-information and for once in the life-span of 'democracy' live up to the peoples' expectations.

56	2003-03-06	08:04:07	lindy mcguigan	glasgow scotland	We need to know the truth
57	2003-03-06	19:34:01	Nicholas Jedrzejewski	Northampton	The people have the right to know the truth. Alien contact was made and it's not public info, WHY? So far it's been 50 years, don't let it take any longer.
58	2003-03-07	14:43:23	Steve O'Sullivan	LEEDS	I believe that every individual has the right to know whether or not we are alone in the universe. THE TRUTH IS OUT THER
59	2003-03-08	11:26:03	craig kenneth adamson	uxbridge, Middlesex, GB	No questions
60	2003-03-13	14:50:35	HARRY SOMMERVILLE	LIVINGSTON	THE LATE JOHN LENNON SAID IN A SONG "JUST GIMME SOME TRUTH"  I too believe that Aliens (for want of a better term) have visited Earth. On two specific occasions I have "Seen" things that I would have to say are UFO's, not necessarily of ET origin but the actions would indicate a technical level of expertise that is beyond that which is in the public domain. I am from a scientific background and would like to thing of myself as objective but there is too much material for it all to be rubbish. I would like to see a more honest answer from the various governments, if there is life out there then I feel the majority of the public would like to know. There has been enough desensitisation via the various media so that now the public would not have a mass panic but more of a "I knew that this would happen". We have a right to know.
61	2003-03-31	21:32:26	Russell Murdoch	Sheffield	MY BELIEF IS SIMPLE, WE SHOULD BE MORE SCARED OF OUR GOVERNMENT, AND ITS LIES AND DENIAL OF THIS SUBJECT, RATHER THAN MEETING OTHER FORMS OF LIFE WHICH WE ALL KNOW EXIST,BECAUSE OF SO MUCH EVIDENCE AT HIGH LEVELS.
62	2003-04-01	23:02:01	KARL SCRASE	brighton	I believe everyone has the right to know the truth.
63	2003-04-02	08:21:01	Shelly Keel	Whitchurch Hants	this is a must
64	2003-05-05	12:40:35	chris taylor	australia	SNIPPED by Steve.W
65	2003-05-08	04:48:36	Floyd Wiedrich Sr.	Ramona,California.	There must be life elsewhere in the universe and the Government are far more aware than they are letting on. Come on Mr Blair, share the knowledge with your people. WE NEED AND HAVE A RIGHT TO KNOW!
66	2003-05-09	20:52:26	Lorna Roberts	Shrewsbury	

67	2003-05-12	19:54:56	GARRY DARLINGTON	CARDIFF	ANY THING I CAN DO GIVE US A CALL AT MY EMAIL ADDRESS ALL THE BEST YOURS GARRY S.W.U.F.O.N south wales ufo network
68	2003-05-12	20:37:38	gail springall	oxford england	The truth is out there!!!
69	2003-05-12	20:44:47	David Williams	Brixworth, Northants	End the secrecy now. Let Disclosure come forward and make history. Not be remember for thinking you were doing what was right and be judged by history.
70	2003-05-13	06:02:22	john ross	houston	As you rightly state, it is time the public were informed as to exactly what the government is keeping secret
71	2003-05-13	09:10:27	Iona McCubbin	Glenluce	I totally agree with what you are asking of the Government and Military. There has been a cover-up for far too long, and I don't believe it was for our 'PROTECTION' 'Good on you for doing this!
72	2003-05-13	13:34:21	Angela Springall	Adderbury	Please tell everyone about all the ufo information that you have.
73	2003-05-15	17:34:21	judithe thuesen	copenhagen/Denmark	I have seen the UFO's in USA and south america. Im Ufologist and research about the ufo..U can contact my anytime if U need a witness..
74	2003-05-26	00:49:38	Howard Floyd Paris	Los Angeles	I suspect Mr. Blair has loyalty to those who prefer to suppress information on UFO's. The belief of those in power is that providing UFO information to the public, even if they demand it, is not in their best interest.
75	2003-05-26	07:16:48	jasbir rayatt	london	yea do it blair
76	2003-05-28	14:21:56	Darren Danks	Dudley, West Midlands	There is TOO much evidence now for the worlds governments to deny this phenomenon any longer. We are being treated like fools and it's time this stopped. We, the people of not just the UK but the planet we call Earth have the right to know the truth. If these visitors were hostile, we would have known by now but they are not so what have we to fear? The only thing we should fear are the governments WE have elected to speak for us but who are ignoring our wishes. The time to end the lie is NOW!! The proliferation of ETs into our society in the form of TV/Movies, merchandise etc is proof that we, as a planet, have accepted the existence of visitors and friends from other planets. We cannot and will not stand for these lies any longer!!
77	2003-05-28	20:07:51	Karen Edwards	Stourbridge	Come on Mr Blair Let us all see what you have been hiding, I for one would be VERY interested..... Good luck with the petition

78	2003-05-28	20:51:41	Wendy Minns	Southampton	I just want an answer to the many questions just like millions of others. I believe we have a right to know.
79	2003-05-30	15:04:42	r connolly	belfast	we all know truth! it's about time THEY confirmed it.
80	2003-05-30	18:13:20	Phil Kirk	Belbroughton	There are way too many sightings for there to be nothing, if the craft are military in origin then why is there testing of 'secret' aircraft less than 100ft from the general public. IT DOES NOT MAKE ANY SENSE.
81	2003-06-01	14:40:04	Clive Denton	Llanwrtyd Wells	We all have a right to know the truth about UFO's.
82	2003-06-13	04:22:15	griffin dunzer	newport beach, CA	i just dont understand why the government wont release information on ufos and aliens. It is almost funny to hear there cover up excuses and the fact that they deny us information, obviously mean they are hiding something. I think the world could handle this and the government is doing a great injustice for withholding this information.
83	2003-06-19	11:45:14	nicola kilvington	leeds	i dont know if i believe in aliends because i havent seen one but i have seen photos n pictures.
84	2003-06-19	11:45:14	nicola kilvington	leeds	i dont know if i believe in aliends because i havent seen one but i have seen photos n pictures.
85	2003-07-19	12:39:43	Clive Denton	Llanwrtyd Wells	Just tell us the truth!
86	2003-07-19	22:10:09	Deep Hundal	Canada	I think its time we start realizing the world for what it really is. I think its time we start realizing that were not alone. Deep
87	2003-07-19	23:03:51	Gary Ellison	Liverpool	I think it is about time for the public to know the truth about UFO's. If it's nothing to do with ET's but our own experimental planes then please just say so. If you just say they are secret test planes, everyone will understand and leave you to it, no more questions will be asked. However, to keep acting dumb as you have done for so many years just insults the publics intelliegence.
88	2003-07-20	16:34:07	Deloren Collins	Salyersville,Ky 41465	There has been a policy of denying the public to have access to the truth in both the UK and USA. After having had a UFO sighing I personally know that the catch-all explanations given by government does not cover all ufo sightings and I would like to have access to what our governments know. DC
89	2003-07-20	16:47:27	Paul Husband	Hyde Manchester	well?

90	2003-07-24	23:23:56	peter adams	Wles	The time has come to tell the truth, your denial has only served in vain. the truth will out.
91	2003-07-27	23:42:45	julie smith	watford herts	they exist let us see we can handle it....
92	2003-07-28	06:44:51	Stephen Whittaker	Weymouth,Dorset,UK	Why all the secrecy about these visitations?
93	2003-07-28	08:10:25	John Simmons	watford	I think we should have freedom of information, or a resource to be able to find out if we wish.
94	2003-07-30	20:23:40	Christopher James Connor	Bristol	We want the truth.
95	2003-08-05	17:23:28	Andrew Johnson	UK	Please add my name to the "Virtual Petition". All the best, Andrew Johnson, DP Rep.
96	2003-08-09	15:19:12	Mark-Thomas Gavigan	Boston, Massachusetts, USA	Please be open and tell the world...
97	2003-08-13	21:42:24	John Orchard	Redruth	Honesty is a rare quality.
98	2003-08-16	20:32:24	Berni Power	Llanwrtyd Wells	The lies and the cover up have gone on to long. We want to know the truth so please tell us.
99	2003-08-17	15:49:08	Peter Rogers	Glen Allen, Va USA	If there is proof that U,F,O's are accountable, then the public should know, all people share this earth, and is unfair to keep people in the dark, when such yhings concern us all. If it has been proven that such things do not exist, then proof should also be handed over...withholding proof, is in a way as bad as hindng facts. If there are facts to be shared then, the WHOLE human race should be able to make there own judgments. Non government people of Britain and the rest of the world, would just like to know the facts, thjeres been too many un resolved issues in this area, that cause some people alot of unrest, and anguish. Others like myself, am of the OPEN minded group, and would just like to be able to share in any fantastic news that may be available, while I have my time on this planet... I feel it is only fair that everyone on earth, has the right to information of such proportioin. Thank you if you took time to read this.
100	2003-08-17	16:38:39	Simon Gray	Swindon, Wiltshire, UK	As the found of the AboveTopSecret.com website, I fully support this petition to release the blanket of secrecy surrounding extra-terrestrial/UFO intelligence imposed by the government.

106	2003-08-18	11:18:33	Graham McCann	Larkhall	everything the government knows about ufo's should be released to the public just read these messages to find out how people feel about it.

110	2003-08-18	17:16:55	Tom Williams	MO, USA	The answer need to be open, not delay, otherwise it will create more problems. Don't delay it! We have a right to know it, plus it will improve our moral systems. Do it for Human Frontier!

115	2003-08-19	20:47:04	Tim cresswell	Ellesmere port	its time to hang out trhe truth like my mums washing
116	2003-08-19	21:27:08	Simon John Canning	Oxford	Well. Some of us are in religious crisis WITHOUT the knowledge of aliens... It wouldn't make a difference with it.... Although, do it wisely... The truth is more important now than ever...
117	2003-08-19	22:23:33	Mike Worstener	Norwich	I wish for a full, open discussion of all known alien facts from the British government.

118	2003-08-20	04:09:11	Mark Danko	Johnstown Pa (USA)	I am as Important as you, my children are as Important to me as yours are to you. The earth is as much mine as it is yours. The truth is as Important to me as it is to you. Be the news good or the news bad, we must face it all together. Most of us already know Alien forces have been a "Large" part of our history, we just have a gut feeling and some bits of info we work with. But what is scary about this is that some think they have the right to control the info/facts. People with power in high places seem to like to hold all the cards I guess!! Well, let's just hope for "All" mankind this doesn't bite us all in the butt. We ALL have the right to know the facts that are known because the risks of being in the dark run much higher for the world. NO deals with ET's should ever be made without the rest of us knowing why. The Truth Will Set You Free!!!
119	2003-08-20	18:49:39	Syed Raza	New York	go aliens go go go  I am an experiencer (alien abductee) who has had these experiences since childhood (ufos, abduction, paranormal). I have received inhuman treatment at the hands of education, psychiatry, and society in general. In 2001, I turned my experience to positive by setting up my own support group, to provide services to people like myself which have long been lacking (even, as I found from personal experience, within the ufo community itself). I am the Founder of FREE, see: <a href="http://groups.msn.com/fretsa4witnesses">http://groups.msn.com/fretsa4witnesses</a> and also the Southern Coordinator and Professional Liaison Officer for CONCERN see: <a href="http://www.maryrodwell.com">www.maryrodwell.com</a> (concern page). I am available for media interview and helping in any way I can.
120	2003-08-21	12:00:40	James Basil	Bristol	well first of all, obviously there are other people, or aliens shall I say. and before we even came around to even evolve in this planet there was someone somewhere already advanced in technology before us. I mean common there are too many sightings. it's too obvious. they cannot keep us ignorant no more. government just think we're stupid we all just gotta stick together and hold our heads on tightly against this propaganda that aliens don't exist. one of the things that keeps this world ignorant is doctors lots of doctors in this world have no idea they have learnt by the system they've only learnt what the system has taught them. and they make everyone ignorant by tv radio and what have you. ok everyone stick together never stop discovering astatuego

123	2003-08-24	11:55:45	jancy gingras	ottawa	well, if people decide they want to be educated then educate them.give them the option. If the majority of the population rules so then be it. I don't think we want a revolution do we? well its too late. Mother nature will take her turn. You can run or fly to another planet but you can't hide!
124	2003-08-24	13:12:57	James Moore	Milton Keynes	The info has been classified top secret for far far too long. This is the 21st Century. We are ready.
125	2003-08-26	13:32:49	stewart grace	belfast	I wholeheartedly support mr watkins in what he is trying to achieve,full disclosure of the et prescence is long overdue,the people are not looking to hang anyone,they just want all the facts out in the open,therefore it is with great hope that i sign this petition.
126	2003-08-28	20:01:10	Barry King	Chelmsford, Essex	My full hearted support is behind this petition. Being one of Dr Steven Greer's witnesses I know the importance of each & every avenue of trying to get the Worlds Governments to open up. Good Luck
127	2003-08-31	19:49:11	Grant Easton	Tynemouth	I already know the truth, but the millions who have been lied to and left in the dark need to know too. Now is the time you cannot treat the population like little children who need to be shaded from the truth.
128	2003-09-05	06:29:09	RODERICK BADEN WILLIAMS	TALGARTH POWYS	I have no comment to add except that if their alien intelligences visiting Earth we should be told. At one time I did feel this was the case but I am now a complete skeptic but still open minded.
129	2003-09-05	10:12:26	Linda McGuigan	Scotland	You have my full support with this petition, I think it is time every one knew the truth.
130	2003-09-05	19:45:44	Hugh Hunter	Kirkcaldy	It's time we all knew the truth, no matter how unpalatable that truth may be.

134	2003-09-09	20:00:18	M.L. Boonstra	Haulerwijk(NL)	For sake of the whole human race please disclose so people can stop fight around the world for there is a common goal and destany for our kind.

135	2003-09-09	22:47:47	Nans DESMICHELS	Paris, France	I would like to see some other secret revealed, almost about military experiement. I sign this petition in brotherhood and solidarity, hoping one day we will live in the son of a man freedom kingdom...
136	2003-09-10	01:09:31	Matthew McGuire	North Kent, UK	I saw a UFO as a child and will never forget the experience: a metallic sphere in a clear sky on a sunny day, reflecting the sunlight and stationary(did'nt move position but was spinning) for around twenty minutes before disappearing in an instant. There is too much photographic evidence & sightings from honest, reliable people for it not to be 'true'. Still not sure of their origin - not sure if I support the extraterrestrial theory. There are many similarities to other paranormal events. But the government MUST have an interest - they have encroached the airspace of the country and this would most definitely NOT have happened without some form of action in EACH case. It is not a question of 'believing' in UFOs - the evidence is there - but what you interpret them to be. KEEP AN OPEN MIND- they are not necessarily alien spacecraft!
137	2003-09-10	19:42:33	Stephen Whittaker	Weymouth	Why when I have seen some docs regarding the truth about UFO's won't the government allow once and for all an open debate about it and open up these files, and tell us all what they really know. Also the general populous is not as dumb as they think we are and for the most we can handle the truth.
138	2003-09-14	00:45:18	Mark Porritt	Stockton-on-Tees	Yes, the time has come for the truth. I mean it's now 2003 (post millennium) and people are ready for it now more than ever. Okay, the "truth" may not be what we are expecting to hear. It might even be disappointing to some and spoil the whole ufo conspiracy aspect for others, but I genuinely do believe it is time to reveal all.
139	2003-09-15	20:41:24	Thaddius Novack	Jersey City New Jersey	I am not from England...I am from the USA but since the US and Britian seem to be hand in hand with the cover up...I wanted to expend my support to you. We must never give up the fight to get our governments to come clean. To come out with truth. We are ready for the truth!
140	2003-09-20	23:17:00	Paul Harmans	Dordrecht NL	Disclosure!! Now!!
141	2003-09-23	22:56:35	Chris Evers	Hull	jesus said, "you will know the truth and the truth will set you free." It is time that the truth hidden by this Government and the UN was finally told to the millions around the world, we accept that the alien presence is real.... its time you did too...

142	2003-09-24	18:17:16	pauline osborne	Wales	Dear Person. We are and have been visited by alien (persons) on a regular basis for Thousands of years.And still are .I wish the governments of the world would stop treating the People of Earth like Idiots.
143	2003-09-26	11:35:14	David Atkinson	Manchester	I'm a UFO enthusiast and would love for the truth to be revealed, whatever that truth maybe, but at the fault of sounding like a pesimist, I really don't believe this sort of thing will help. They are either going to tell people or not regardless of whether people complete such petitions. But I congratulate you on your efforts and keep up the good work. Goodluck Dave
144	2003-09-26	18:45:18	Robbie J Palmer	Stamford	The public have a right to the facts. If there is something being kept secret we should be told off it.
145	2003-09-27	11:31:44	alfred dodds	widdrington.	I am the founder member of the Northumberland UFO Research Center and fully back your petition.
146	2003-09-28	12:19:02	Clare O'Sullivan	Hull	I know that what I have seen have not been halucinations as the de-bunkers would like everyone to believe. It's about time that we were treated with some respect and told who is really out there and why they're coming here.
147	2003-10-01	13:03:50	Jerry Joel	Dorset	If you are reading this chances are you are a believer - Please take the time to fill this out. There are to many talkers out there and not enough do-ers. Are we all just gonna sit there and continue to do nothing??!! I hope not!
148	2003-10-02	02:36:18	Stephen Harris	Bideford	we are going to find the truth, no matter if we have government backing or not. It's about time the government started to give us some real information on this subject (though i'm not holding my breath). As i said, i'll support the researchers, we'll all draw our own conclusions. We shouldn't need to seek government approval on this, since we already know they will mess us about for another 1,000 years
149	2003-10-02	21:50:23	Karl Pierce	Stoke-on-Trent	I think it is about time the government opened their eyes and realised that people in this country are sick of being lied to over numerous things especially the UFO debate, we know the TRUTH and we demand the truth but one thing is for certain 'The truth is coming'
150	2003-10-04	12:28:16	frank bell	felixstowe	Living on the doostep of the Rendlesham Forest landing, and I know several people who saw it, I would like to exactly what happened on Forestry Comission land (i.e. public property).

151	2003-10-05	06:09:08	Tony van Rysewyk	Palmerston North	I'm from New Zealand and I support your petition. No government in the world should have the power to withhold this sort of information from the people. It is our right to know if we are being visited by intelligent aliens and it is also our right to know, where the government is aware of such, the alien agenda.

154	2003-10-06	10:49:02	Nadia Schwartzmann	London	The UFO subject should be discussed and presented to the general public.
155	2003-10-08	23:11:41	Dawn Stoker	South Sheilds	I would like to sign on behalf of the petition and would like to state that we know information is being kept from us the general public and the government may think it is for our good but they should not deny us our right to know people are all grown up and responsible and would accept any truthful fact we are told so le us know
156	2003-10-14	17:09:00	Kevan Paton	Preston	It is obvious that the government & military know far more than they are letting on. They may think it is for our own good but more likely it is for their own good. Well we are going to find out sooner or later so why not now?
157	2003-10-14	22:17:42	Duncan Wright	Preston	"NANU-NANU"
158	2003-10-15	20:06:01	james gunning	norwich	Public opinion is rapidly changing towards acceptance that the universe is full of life and the evidence is overwhelming to support the reality of UFO visitation. The public can handle this information and should be told the facts, good or bad.
159	2003-10-16	03:00:00	mal douglas	Oman	YES
160	2003-10-18	09:24:03	david edward whale	caersws\powys	perhaps tony would do well to take into account the growing number of witnesses? to ufo sightings .and remember they are also voters? growing in number?, and getting ticked of at being treated as idiots??? come clean PM and win a lot more votes for honesty and lead the rest of the world to boot?.

161	2003-10-18	21:09:47	Geoff Shaw	Brixworth, Northants	UFO's nah, It would take too much energy and time for an ET civilisations to visit Earth, it's about time the governments admitted to the ongoing programs for state of the art aircraft that are being produced. I'd like to see the documentation for these Mr Blair!!!
162	2003-10-19	12:45:12	Dennis Nelder	Caerphilly	The government are a joke always hiding the truth. I believe that they should come clean after all we are the ones who put them in power

164	2003-10-21	15:32:37	Jon Metcalfe	Durham	GIVE US THE TRUTH!!!
165	2003-10-26	15:27:56	Mr Rock Andrew Stanton - Thorb	Torquay	What is the point of covering up the existence of UFO's and / or Alien life forms when the evidence is so supportive in favour of. Truth will out - that is a fact of life so stop treating the public as idiots or children that 'need' protecting because we are neither, we are quite able to deal with the truth. You cannot hide behind the official secrets act forever either.
166	2003-10-26	19:22:23	kevin harris	durham	i cannot believe we are the centre of the universe and the only life in it. to say otherwise is idiotic nonsense. to then claim its too far away is a quaint notion that belongs in the 16 century they also said that lots of things wernt possible ..... maybe if we were at war with whoever we would find it nessasary to invent said transport thats the way it has gone over the history of man aint it.
167	2003-10-27	11:45:23	Ros Frost	Cheshunt, Herts	Don't keep us in the dark. We have a right to know the truth.

172	2003-11-01	17:29:59	John Thompson	Oulton Broad, Lowestoft	As the renowned Stanton Friedman says, the evidence is overwhelming. It is quite wrong that those who have had distressing encounters, particularly abductees, have that stress added to by being isolated through the fear of ridicule.

173	2003-11-02	22:23:27	john kyle	newcastle upon tyne	why do the governments of the countries of this world think that they have the power to ultimately decide if we mere mortals are intelligent enough to handle the truth about the existence of extra-terrestrials, or could it be that the ETs are still looking for intelligent enough governments to contact, if so they may be waiting a long time. after all it isn't the normal man in the street that wages war on another country is it. that said i would certainly like to know THE TRUTH,THE WHOLE TRUTH and NOTHING BUT THE TRUTH SO HELP THEM GOD!
174	2003-11-03	09:30:25	Tony Hall	Shropshire	We have a right to know, world governments and powers should not keep things from their own people because the sooner everyone knows the better. When the public eventually realise the truth they will be wondering what the hell the government was thinking. The sooner we know the better!

176	2003-11-03	18:37:33	Nigel C. Wright	Exmouth-Devon-UK	As a reseacher of 35 years standing in this subject, I fully support this act.....I always assumed that the first role of any goverment was to serve the people, not decieve them!..All good wishes for this project
177	2003-11-04	17:59:56	Julian Smith	Leamington Spa	The fear I think is one of cultural colonisation from a supposed superior race.My own opinion is that it would not be difficult to be superior to this selfish and narrowminded society.
178	2003-11-08	15:49:16	Avril lydiate	Crick .Northants.	a andI have had many UFOsightings in the Northants area and some very odd experiances as well, which I would rather not talk about. I think it is high time the government told us what is going on. Yours hopefully, Avril.

183	2003-11-11	01:52:41	Allan Greagsbey	Portsmouth	Yes I agree it's about time the truth was told. I think the government should hold up it's head and say to the public what has been going on.

189	2003-11-14	15:22:14	John Taylor	Grimsby	This subject has such importance to the future of the whole of our species that it is criminal for those in the know to keep the rest of us in the dark. We will never attain a truly free and civilised society while a small number of individuals control the flow of information to the rest of us.

200	2003-11-24	22:28:37	Daniel Greatrex	Blandford	I've seen a ship close up b4 and numerous strange sightings such as a red ball that was being intercepted by planes and disappearing then re-appearing elsewhere. Don't let these details remain Military and Government secrets. The British people have a right to know the truth. - I am now 30 and have experienced 1 sighting in my lifetime, something I will never forget. Let the people know!!! Or are you too afraid it may cause mass hysteria?? What does the church feel about this?? You're a Christian, would this make you question the existence of God? Maybe our forefathers thought ET was god? - Open the book Tony!!!

206	2003-12-16	15:29:39	Clare Louise	Somerset	Come on!!!! We all know the moon landing was fake, and I believe the moon is habitable and aliens live there. We are being denied natural evolution and hidden from the luxury experiences from scientific advances. Tony, let us evolve or we are all going to kill ourselves in war as there is nothing better to strive for and focus on.

207	2003-12-21	01:02:09	Rock Andrew Stanton-Thorburn	Torquay	Since about 1974 i HAVE seen several UFO's.One account was mentioned in the respectable UFO magazine.If all governments were to be open and honest regarding UFO's there would be no more ridiculous theories and plain speculation.We are capable of dealing with the truth.We want and need the truth and facts regarding UFO's.The covering up has gone on long enough.
208	2003-12-29	19:54:19	stuart john bradman	haworth keighley west yorkshir	i have been interested in the ufo phenomenon for many years, thirty plus,and have read many books on the subject too numerous to mention.i saw a classic flying triangle in november 1982 in silsden, nr keighley, my work colleague and i watched it move slow and silent until out of sight and heading towards keighley.many people have recounted to me their stories of sightings because i was a willing listener and would not redicule them as other ignorant people would.needless to say,not one of them would dream of reporting what they saw to the authorities for fear of redicule.that i think is down to the governments efficient policy of playing down good reports and dismissing witnesses as either mistaken or hallucinating etc.It is of the utmost importance to the furtherment of the human race as a species that the full disclosure of this phenomenon be given without resevation,and in full, to the whole world.
209	2004-01-05	20:33:31	Will Hearne	France	Time to 'fess up Tony. You never know, it might win some votes! Neat site Steve. Keep building and best of luck.

251	2004-02-25	23:19:56	raj kumar hazarika		Aliens exist. The reason it has been covered up is quite simple. If society knew they really existed every financial social religious and political regime/institution would become useless. For example what use would money be if alien knowledge made it redundant ie infinite energy sources giving everyone total freedom? Such a concept terrifies the power brokers of planet Earth. Their status would be totally undermined thus demanding the reality of existence is denied. Raj.
252	2004-03-01	01:55:28	Luella Fox	South Lake Tahoe,Ca	I am so tired of the governments of this world trying to keep the topic of UFO'S and Aliens secret. There is too much proof out there to try and hide. The governments need to come clean and tell the truth. I know what I have seen and am not afraid to admit that UFO'S and Aliens are real.
253	2004-03-02	05:19:20	luke		governments need to talk about this before the population gets sick of being controlled by by these liars

How can the govermenthide something as big as this away from the beleivers of et's (the people that want to prove to others that were not alone in the universe. I think that the goverment are scared that if a et did visit earth that they would be so much smarter and technical that the goverment will be embarressed. 'WE HAVE THE RIGHT'.

259	2004-03-15	11:42:59	P. Shepherd	Northampton	Having had many sightings during my life including five of structured craft, one a CE4 on the ground in 1973, I know we are being visited & everyone has a right to know this. The government has a duty to inform the general public of everything our country's security services are aware of regarding the fact that we are not alone in the Cosmos.
260	2004-03-18	21:15:45	lee middleton	st anne.man	we all ready know the truth,we are just not allowed to live it.control is only is only as bad as it is aloud to grow.truth is what we feel not see or hear. ENJOY LIFE IT WILL PASS FAST!!!!!!!

261	2004-04-10	16:01:31	S Baddeley	Chester	When there is a political advantage in informing the general public, we will be told. The release of such information is the US/UKs best weapon in the fight to retain its global dominance. The process of drip-feeding information has already begun, gradually softening the general public's attitude (mars - ice water, methane, bacteria, discovery of earth-like planets in nearby solar systems etc). Some years later it will be leaked and then announced that communications have been going on for several years, but that inter-stella communication (not contact) is all that is currently achievable. (We are 'doing the good neighbor bit', 'playing our part in the galactic community'.) A while later it will be confirmed that extra-terrestrials have in fact been visiting. ('We didn't want to scare the public.') Give it time. When politicians are desperate for power they'll do anything to keep it.

267	2004-04-21	23:49:24	Raj Kumar Hazarika	London	I am a believer in alien existence. Unlike the existence of God there is epistemological/physical evidence that they exist. The quandry I find my self in is that knowing this, still demands a requirement of faith that they exist. For example, no matter how many blurry photos of UFOs we see, there is still no conclusive proof. Why have'nt they landed on the steps of the White House and put all the doubters to shame? A governmental cover up can only last so long. Thus sceptics will always have some intellectual ballast. The point I'm trying to make is this, as believers we all must retain some faith until they reveal themselves to the world at large. Faith is the key. Here is the greatest paradox of all, in revealing why faith in the aliens' coming is paramount.Facts are not enough, sometimes that ontological leap into the darkness must be committed: When we talk to God/Jesus it is called Prayer. When God/Jesus talks to us, it is called, Paranoid Schizophrenia.Aliens exist.RAJ HA
268	2004-04-27	19:24:12	Glen	Lincolnshire	If, for arguments sake there are such things as UFO's.( I've seen a few unexplainable things also). What makes anyone so sure that by sending even 40 million signatures to Tony Blair or any of his closest allies in the Military, all the Intelligence Agencies, here and in the Pentagon. That it would make the slightest difference to them. NO!!!Not a chance in Hell! It would be like trying to break into Fort Knox with a rubber Key! So forget it Tony old boy will keep his lips sealed By Order of the U.S Military and Intelligence and the British Millitary and our Intelligence Agencies. One thing to ponder,the US went to the Moon, even with their limited technology..Why have they not gone back?Only 2 reasons exist...(1) it was a mammoth 'Hoax' to deceive the Russians or (2) Something 'out there' warned NASA to keep away from the Moon!!! Before I go, anyone know about the Black unmarked helicopters? I've seen one while out walking, it flew close enough to feel the downdraft!

271	2004-05-11	10:50:44	Daniel Meehan	Corsham	It seems that the complaints of thousands of people can not be ignored anymore. It is quite obvious to anyone with an open mind that people world-wide (including Britain) are being 'bothered' by these infernals. They are not here to help, it seems their sole objective is to scare, molest and torture humanity. WAKE UP BRITAIN!

272	2004-05-12	12:26:33	C..Lewis	Hull	Back in 1977-9 when i was about 7-9 years old, me,my brother & several other people saw what we believe was a UFO.It was at night and we was playing football outside, when a bright light engulfed us all, assuming it was a car we moved to the side of the road and looked up and saw this UFO.It was rectangular and maybe curved slightly towards the ends and the light shone brightly from its sides. My late father had tried to capture a photo but to no avail.Although many people saw this UFO, i dont recall anything being said in the local paper. A few years later when my brother went to senior school,he was talking to some friends about this and they said they had seen something simular and both drew what they saw on paper and the images matched.Apparently these friends was playing rugby further up the estate when this ufo passed over.All but one ran away who seemed to be trapped in a beam until one of them came running back and rugby talkled him out of it!
273	2004-05-16	23:10:31	RAJ KUMAR HAZRIKA	LONDON	Aliens exist. Come on people, sign this petition and let's get some change catalysed. Remember, space is infinite, time is forever, thus aliens exist. WHY? Statistically Earth cannot exist as the only life supporting planet. Thus there must be millions of life supporting planets. If one has interstella capability we must have been visited for years. If millions of people believe in God, aliens exist (at least we have some epistomological proof ie photos, unlike God), as belief in unknown beings is a real phenomenon. Raj
274	2004-05-23	12:03:47	Eugene Stickney	Watford, Hertfordshire	Myself and my Girlfriend witnessed a UFO sitting back in 1997 and I have been a believer ever since. I think it would be in the public interest/national security to stop playing games and open a public enquiry. I fully support the petition.

279	2004-06-08	10:01:38	Ryan Mackay	Blackpool	I think that alien existence is among us because we cannot be alone in the vast universe and i think the first life forms in existence were aliens and extraterrestrials and the first form of transport was unidentified flying objects
280	2004-06-09	09:51:45	steven paul mcnamee	chatham	with all the information that i have aquired over the years,i can only come to the conclusion that most people in government are ignorant of the true facts regarding ufo subjects. and the people who do know, will not release such information whilst they can benefit financially from any technologies that they may have aquired from ufos.

288	2004-07-07	14:41:44	Kevin James Scullion	Tyne and Wear	Since the age of six yrs, I have undergone certain 'nefarious' experience's concerning table experiments. Something to do with the 'pineal gland' structure set in the back of the brain. It concerns the build up of 'outward' telepathic ability. I don't know why these scumbags bother, all religions are as ignorant and false as all the athiest participants of the world. Nothing can be done for this selfish species.It's sweet that people care though.
289	2004-07-09	12:44:47	James Hanna	Goes, Netherlands	It is better to answer the questions with the truth and face the consequences now, then in the future. For lies can be taken the wrong way, especially when kept for a long time. Once Accepted the truth ( what will happen), it is better dealt with, more commen and less problematic, then lies what need more problems and lies, to keep it alive and flowing; what also raises more questions and curiosity, what leads to even more problems!!!!

295	2004-08-05	20:53:34	Bill Eatock	Wigan	Why is it so hard for ANYONE to accept the existance of entities from other planets? Let's face it planets were made to be inhabited! Governments will always deny the existence of visitors from other worlds, can you blame them?..as their power-base will be totally undermined if the truth gets out. If anyone reading this had next weeks winning lottery numbers would they give them to anyone else? The powers that be have the truth and like the winning lottery numbers their not gonna share!
296	2004-08-06	00:15:06	Maurice DesJardins	Acushnet, Mass. U.S.A.	We are on the threshold of a time in history when the human race will be drawn into a union with the cosmic powers that have fostered our superstitions, our myths, our religions, our philosophies. We must be prepared. Help us... don't hinder our efforts to know what it is our right as human beings to know.

297	2004-08-06	13:45:04	Ruth Fisher	Acushnet, Mass. USA	My government's excuse is that people will panic. It is of course, ridiculous, due to the fact that I personally don't know of anyone, even children, that don't know of the existence. Since we in America cannot get the truth of what has been going on for longer than most have lived, perhaps the British will be the forerunners in the world to come out with the truth of what is happening. I ask you humbly Mr. Blair to please be the first.
298	2004-08-06	14:12:34	Bill H. Burt	South Milwaukee, WI USA	Come on Mr. Blair. You know you'll feel better if you do.

303	2004-08-17	17:45:32	Ross Alexander Thompson	Morpeth	The question is not "Is anybody out there?" but "Why are we denying it?"
304	2004-08-17	20:54:51	mandy Fellows	Merseyside	After trying so hard to get on to this site i was beginning to wonder if what is out there didnt want to me to come here, but now i know i know it does as it wants me to let the truth to be known that there is something out there, i think we deserve to be told, come on Mr Blair Let the truth be told!!!!!!!!!!!!!!
305	2004-08-20	15:36:05	Mike Field	Tamworth	To enable us to find real answers we need access to all the real information. If there is nothing in such sightings then the Gov't should'nt have the problem is has over releasing the details. If there is something in this phenomenon then as grown adults it is not upto the Gov't to decide what is right or wrong for us to see and believe. We elect them in a democracy, it is our democratic right to have access.

307	2004-08-28	13:24:24	june thomas	swansea	i am a believer i have seen ufo its about time the goverment comes clean about ufo  The question of alien existence is the important issue that human history and humanity in general has to answer. If aliens exist all of human history has absolutely no consequence. The existence of aliens would mean all the petty issues of humanity would have no consequence. These are the facts: THE CLEVEREST ANIMAL IN THE WORLD IS THE ONE WE HAVEN'T SEEN YET. The existence of aliens is the highest top secret of all governments. Thus just because hard evidence of aliens is not in the public domain doesn't mean they don't exist. Remember the power of no smoke without fire. Can the whole cannon of alien existence be without foundation? One day this question will be answered. Government will say concealment was for our own protection. These people will have to answer for their lies one day. Alien life forms exists. One day the truth will be out. For the enlightened : KEEP THE FAITH. Raj
308	2004-08-31	20:41:42	Raj Kumar Hazarika	London	it is obvious to anyone with half a brain that not only are we being visited but they are here.hopefully soon we will all be told exactly what is going on.i praise anyone who stands up for their right to truth.  On the basis of present knowledge and the most likely explanation of the extraterrestrial hypothesis, we have been and are being visited by intelligent life forms that appear self-disguising in and out of the narrow band of human perception. These continuous direct and indirect multifaceted alien manifestations demonstrate we are connected beyond the universe as we know it and are part of a much more profound cosmic process, the connecting of two species. <a href="http://www.geocities.com/extraterrestrial_seti/extraterrestrial_seti.html">http://www.geocities.com/extraterrestrial_seti/extraterrestrial_seti.html</a>

311	2004-09-30	14:22:30	raj kumar hazarika	london	I have seen alien beings on the tube. These beings have the power to "cloak" like the chameleon. They look like ordinary humans except they do not speak or have much facial expression. The nature of their camouflage is difficult to determine. It isn't a prosthetic suit nor holographic, more a melding of the two. They operate amongst us, observing and evaluating. Remember as always: THE CLEVEREST ANIMAL IS THE ONE WE HAVEN'T SEEN YET. Keep the faith!
312	2004-10-05	05:29:46	Ralph Martin Dennis	wheatland , wy. usa	i would like to know the truth of ufo's after watching a piece on the history channel of a secret air base in london involving american airmen and there account's of several sightings with pictures ,gigger counter readings and a recorded voice of one security officer yet all documents have vanished. somebody has to be held accountable for this, i mean come on it only happened in 1980.
313	2004-10-16	22:11:03	DARREN HULL	CAMBRIDGESHIRE	IVE SEEN ONE!
314	2004-10-16	23:36:18	sean,rowe	az,	HI THERE, Well lets just say i know a lot more than the average bear" And i'm connected to a person who has been chased by all military agencies,real M.I.B. everything..It's out there believe me folks!...take care
315	2004-10-17	16:10:12	Amy Richardson	East Yorkshire	Questions need to be asked. Keep up the good work.
316	2004-10-18	22:06:49	Wayne Hackman	Swindon	Mate go all the way!
317	2004-10-23	00:04:38	Mrs Charyn Carter	Portsmouth	Mr Blair: Time to Realise what is staring you in the face Never has the evidence of their existence been clearer. It is time to revoke your so-called protection of the people by the secrecy act. You view us all from the satellites in the skies anyway as our country and numerous others are now BIG BROTHER WATCHING YOU and we all know you can view us blowing our noses from space, if you can you are surely intelligent enough to be aware that they can to and they probably need to "assist" us by correcting the corruption and lies and secrecies that are forced upon us, not asked for. Come on Mr Blair it's time to wake up and smell the coffee !
318	2004-10-23	03:56:15	Genna Castillo	Calgary	We want to believe and we want answers its about time we get them
319	2004-10-23	11:28:19	Joe	Malta	It is about time that the government tell us all the truth about UFOs and ETs. Everyone, especially UK citizens, have a right to know the truth. :)

320	2004-10-23	16:48:57	Mary Ornelas	Las Vegas, Nevada	<p>This is one of the most important subjects, ever, in our history! It's time the folks that know the truth to tell all. The secrecy that surrounds this subject, can only harm us. Mr. Blair, please become a man in your own standing! Mr. Bush is not interested in helping the truth get to us. Why? One can only guess. I feel, it's because, he is not in control. The solid proof is everywhere! It is time for it to get to everyone! I've had 3 craft sightings. Not one was the same craft. And none of them were built by humans! It is time for all to know the truth!</p> <p>We at Book Of THoTH are firmly committed to supporting a disclosure of UFO related information. The question is no longer "do UFO's exist" the question now is "what are we dealing with". I'm of the opinion that if there is nothing to a subject, then there should be no need for the secrecy that still exists relating to many of these historical moments. Yet that secrecy is very real, and proof that there is more to this subject than is being told. Whatever that information is, let us the people who elect you to power, hear what it is, and lets all learn together. THoTH <a href="http://www.book-of-thoth.com">http://www.book-of-thoth.com</a>&lt; br&gt;</p> <p>Video; photographic evidence; eye-witness accounts from intelligent, trained sources, whose testimonie's would be used in a Court of Law were it for a criminal case, but are cast to one side necause the 'truth' is still denied. Whatever the 'truth', be it Alien or something science can't yet explain, we need a reasoned public discussion so we can judge for ourselves from any 'evidence' available. "Unknown objects are operating under intelligent control... It is imperative that we learn where UFO's come from and what their purpose is..."  - Admiral Roscoe H. Hillenkoetter Director, Central Intelligence Agency 1947-1950</p>

323	2004-10-26	02:48:53	Derek Furr	Concord	I have seen something that defies all explanation. My mother saw this also, so I'm not crazy. 3 balls of light moving around in patterns. They were a brilliant light sort of like a star. They were moving independently when they lined up in a straight line, and came together to form one ball! As soon as this happened it shot up into space with mind-boggling speed. I'll put it this way, it seemed to be very close, as in about 20-30 ft away, but if you would have blinked it would have already been out of sight! I swear on my life to this and my mother would also. We just want to know the truth. There isn't a day that goes by without me having these thoughts, and the amount of evidence out there is irrefutable. Everyone needs to view this subject with an open mind. The Universe is so vast with so many planets, galaxies and solar systems that the possibility for life on another planet is highly probable. Intelligent life also. The truth needs to come out. We can handle it
324	2004-10-26	18:46:05	tony solinas	winchburgh	i would like the secrecy surrounding ufo ended and also black technologies that are being used by secret covert groups that if integrated and used for everybody could end fossil fuel dependancy

332	2004-11-07	20:41:18	Christy Helland	Kelowna	Information is not a privilege, it is a right. The public will know the truth eventually so there is no point in trying to hide it. It will only result in a lot more residual anger in the end. We are all human beings here, so why not work together, we could learn and accomplish a lot more. Why are you afraid to let us know the truth? What you may not see is that most of us know the truth already. As soon as we all start working together, we can all open our eyes to what is in front of us and see it for what it really is. Let's avoid unnecessary conflict and just share all of the information. In the end we will all know anyway.

343	2004-11-28	14:58:44	David Richards	Cadoxton, Neath	I was working night shifts in a private mine in seven sisters a few years back, I was taking my mate home on the back of my motorbike (He was working afternoons and his shift was ended) It was around 11 O'clock pm. We were travelling past a forest when a big green light lit up a large area of the forest. I stopped the bike and we watched it for about 30 seconds.

345	2004-12-04	12:48:41	Richard Jankowski	Cannock	I think the people of the UK should be given the courtesy of a public debate in the houses of commons on this issue. There is a body of evidence which continues to grow that is compelling. I myself witnessed something I cannot explain - whether this was extra terrestrial or secret aircraft I dont know - but I would like something more than questions - I would like answers.

353	2004-12-28	20:26:13	Lee Hickman	essex	Our uk government has many secrets, which need to be uncovered for us to not just act as seperate coutries that are seperated by war a terrorism, but we need to act together as a "plant". Instead of saying im apart of theu.k or u.s we need to sayim apart of earth! the only way we can act in this way is for the buried secret about e.t to come out. only then can we be a nation of peace for one another.

I believe that most unidentified ufo's are from the government, based on alien technology.It is ludicrous to think we are alone!! During the next 100 years, the Earth is going to become more of a dangerous place and our natural resources are becoming low. details of "free energy", as used in "flying saucers", is readily available to top secret governmental departments world wide. We have a right to know what is going on and could essentially help us to make the world a safer and happier place.

Mr Blair and his boss 'Mr Bush'have inflicted great harm on an innocent world population. They are not in control at all?,it is the black agenda of non-elected so called "human beings",ie: Illuminati,Bilderbergers etc.. These administators are puppets and they know it.A game is being played out here, "us and ET!",not looking to good for us with the secrecy job as it is at present!! . 382	2005-02-20	21:55:11	ron powell	severn beach	a few years ago by the side of the river severn i looked up in the sky and there were objects nightly cruising over us. ufo means just that! unidentified flying object.it does not mean alien spacecraft(although i would like to think they are. they vast majority of people now except that there probably is objects up there not from earth.we are all grown up enough to be able to take that in.and we all must have noticed in our lifetime that the way we were taught about life is turned upside down and just does not make sense.aka. people doing just a few years for murder and getting out early for good behaviour.you may not see the connection,but this is just not right in as much as what we all know as right.just one example of too many to mention. it's like the the old hippy remark," like what's happening man"? next time something happens like that you'll know what i mean. it's happening all over the world. and it coincided with the ufo explosion.think about it!**ron powell.
383	2005-02-23	14:39:17	Chris Maguire	Isle of Wight	In the early 2000's, I saw, and reported, a PAIR of UFOs that appeared over Robin Hill park, IoW, in broad daylight, between 14:00 and 15:00 ZT. They were two perfect spheres, both grey in colour and moving against the prevailing wind. They were probably 1000+ feet high, this being measured against both the intermittent cloud and the light aircraft flying over from Sandown Airport. The weather was sunny with broken cloud, wind direction Easterly. The first one was stationary for the few or so minutes I observed it, and it was joined by the second one, which came from the West. They flew off towards the East over the sea. This is not the only UFO sighting I have had over the years, although I realise that a percentage can be explained, or was misidentification on my part (lack of experience, etc.); I know that some cannot be explained as such.

I honorably request your co-operation in the full release of these classified matters. Some of us are getting old and we know the truth. Our dream before we die is the release of what some of us know as fact because of personal observations and encounters. We especially dislike to be lied to.
392	2005-03-12	23:55:29	Mike Hallett	Grateley, Hants	Stop being so patronising, the people can be trusted. Cut out the crap and tell us what really is going on. I'm ex-military and I know that the objects I've seen on several occasions are not "conventional" flying machines depending on their aerodynamics to achieve flight.
393	2005-03-13	16:24:38	Max Gargus	Cape Town, SA	Every Body and I mean Everybody has a Right to Know about the Various Extraterrestrials that visit and watch over the people of earth. 395	2005-03-14	07:27:50	Tony Fevrier	Cape Town	I personally have not seen a UFO but have researched this field for a long time and believe in the existence of UFO and life on other planets. Far too much evidence!!

397	2005-03-15	22:55:17	Joanne Summerscales	Hastings, East Sussex	Having the pleasure of personal knowledge of an ET contactee, whose experience over the last 35 years contradicts all the denial, I think it is time Blair and Bush and all other leaders tell the truth....we are not alone, and never have been
398	2005-04-02	15:33:28	Jeffrey Mark Rawson	Woking	Although I have never experienced an alien encounter of any kind, I do believe the government's silence in such areas, and concealment of doubtless many documents connected to such topics, especially in the U.S, speaks for itself. The public has a right to know exactly what their elected government does.
399	2005-03-17	20:29:07	anne osborne	Guernsey	Its about time someone came clean about ufo's and aliens.there is so much evidence out there how can (you ) the government DENY DENY and DENY!!!

402	2005-03-23	19:33:49	Stephen P Dodson	Wakefield	My wife and I were within 100 yards of a flying saucer coming in to land in Leeds in 1979. Then we saw a flying saucer in 1998 taking off, rotating in the sky like a giant ferris wheel, for all to see. It is time for disclosure. I feel that, if Dr Steven Greer is correct, that the ET matter is not being handled by politicians, but by unelected people with wealth and a vested interest in maintaining secrecy, then clearly the threat to democracy is real and will grow, particularly in America. Eisenhower warned us of the military industrial complex back in 1960. Now we know what he was referring to.

415	2005-04-17	17:25:48	Daren	England	The governments of this planet should not fear what Disclosure would bring. They will not necessarily lose the control they currently enjoy over their populations. So the oil companies don't want to lose their vast wealth and control they have? Tough, oil's going to run out eventually anyway, so get used to it. When the ETs finally reveal themselves, and their clean, limitless, source of energy, this planet will be saved from the eco-disaster it's rapidly heading for. If any ETs happen to be reading this, or other related material, I am formally requesting you reveal yourselves. If you have a "Prime Directive" which forbids interference in other cultures, it is void in this case, as I have asked for your assistance. I have as much right to ask for it as anyone.
416	2005-04-30	12:43:11	Sam Willey	Sunderland	The truth of UFOs must be heard we have a right to know.I have had many UFO experiences and now i want what the government knows out in the open now.

453	2005-08-07	00:57:17	Gil Williamson	Masham, North Yorks	Serious researchers of the UFO Extra Terrestrial phenomena are rapidly running out of patience with the insulting, purile manner in which encounters by reputable witnesses around the World are treated and reported. THE TIME IS NOW DUE for this subject to be treated more seriously and reported accurately in the main stream media. Extra Terrestrials have already indicated their willingness to embark on a more open contact with us, the outcome of which could only be beneficial in areas where superficially, we have insurmountable problems. e.g. sources of energy, pollution etc. This also may encourage or bring about more open forms of government.

456	2005-08-30	21:16:48	gerry pointon	bristol	My intuition tells me that there is more to this life than we realise.We live in a physical dimension and have five senses with visible light being an extremely small slither in the frequency chart.Of coarse there's more!We don't even know what concioceness is yet let alone what subconcioceness is.I'm sure we are being observed and somehow I feel it's connected to the Bible.

466	2005-09-13	04:55:36	Chad Hagar	Springfield, MO-USA	I strongly, strongly, support the idea of the information being held to be made public. We deserve the right to know. Most humans belive in the existence of extraterrestrials, so we already know.

473	2005-10-14	14:00:40	Daniel Fiddaman	Birmingham	I could understand the need for governments and military agencies of the world to keep the whole UFO conspiracy under wraps because it would cause mass panic if they suddenly told us of ET existence but we do have a right to know and that is why I am signing this petition becasue I do believe the government have information that they are not releasing to the public.

474	2005-10-17	12:50:36	Martin Hucknall	Birmingham	i kno there are UFOS out there i have seen footage that noone can explain away as a balloon or something on the camera or a trick of the light we should be able to trust the people in power not think they are hiding things from us
475	2005-10-19	20:42:53	Sheila Harper,	Malaga, Benalmadena Costa	e-mail,benalmar78@hotmail.com Having seen a UFO over New Jersey in 1959 I can not in all honesty say they do not exist. I also believe that the world today will not be the frightened masses that listened to Orsen Wells War Of The Worlds on the radio. We deserve to know the truth.
476	2005-10-22	21:38:20	Anne & John Eversley	London	We know that there are advanced intelligent civilisations in other galaxies, they and the governments of our planet Earth know that we know, therefore there is NO EXCUSE to keep THE TRUTH from us. Tony BLiar, try something new - tell THE TRUTH about ET'S, UFO'S, and the work the governments are cooperating on with these other peoples from other galaxies. Most likely they are our 'parents'. The proof exists for this in ancient texts, documents, carvings, statues, and paintings as well as in the HOLY SCRIPTURES - GOD's own WORD - what we call the Bible.
477	2005-10-23	10:52:16	BRIAN COLEMAN	coventry	There are times we have to dis- embark from others who keep the secrets, allies can be enemys if the human race is denied the truths, Look to your makers for answers and do not rely on alien preseance that control today as they be your enemy tommorow.The future is dependant on to dicide the right from wrong and people are becoming aware, without politions knowing, we are looking to trust your descisions -- do the right thing.

480	2005-11-24	16:43:27	Rachel V Kleypas-Sparrow	Norwich UK	I have sighted and been witness to many ufo experiences and sightings. I have even photographed a few to say the least. They are real and are not of terrestrial man-made origin. The technology involved in one photo mankind has yet to develop. Time for the truth, no matter how hard it is for them to tell us. Enough of the lies and cover-up. In time the truth will come regardless of the cover-ups and lies.
481	2005-11-11	19:32:31	Eric Morris	Northwich Cheshire	Whilst secrets need to be kept there are people who have served in the military who have substantive data proving unidentified phenomenon are invading British airspace.It is time Mr Blair to work in harmony with these people and possibly obtain alien technology before anyone else
